

ORIEB ALZUOT

Senior Front-End & Mid Full-Stack Developer

 alzuotorieb9999@gmail.com  +962 77585 3203  Amman, Jordan  linkedin.com/in/orieb-alzyuot996

 github.com/oriieebgSmile96

Work Availability: Relocation | Remote | Full-Time | Part-Time | Per-Project / Freelance

PROFESSIONAL SUMMARY

Senior Front-End and Mid Full-Stack Web Developer with 6+ years of experience capable of taking complete ownership of end-to-end front-end projects, architectures, and UI/UX implementations using Angular, React, and React Native. I build projects completely from scratch, refactor and upgrade existing codebases, and significantly enhance performance while keeping a sharp focus on security and accessibility best practices. Genuinely interested in Blackstone's solutions and the impact they drive across enterprise digital ecosystems.

FEATURED WORK & REPOSITORIES

- **Bareeq Al-Aeeq (Angular 21 + Expo):** Multi-platform architecture utilizing signals & modular design — github.com/oriieebgSmile96/angular
- **GitHub Profile:** View open-source contributions & codebase refactoring samples — github.com/oriieebgSmile96
- **LinkedIn Profile:** Professional network & industry recommendations — linkedin.com/in/orieb-alzyuot996

CORE SKILLS & TECHNICAL COMPETENCIES

- **Frameworks & Web:** Angular (Expert - all versions through v21/v22), React.js, React Native, Next.js, Node.js, Express.js
- **Languages:** TypeScript, JavaScript, SQL, C#, Python, HTML5, CSS3
- **Cloud & Infrastructure:** Microsoft Azure, Docker Containerization, CI/CD Pipelines
- **Databases & APIs:** PostgreSQL, MongoDB, RESTful APIs, Microservices Data Flows
- **Tools, Design & Quality:** Git, Agile/Scrum (Jira), Cursor, Claude AI, Figma, Adobe XD, Unit Testing, Code Reviews, Web Accessibility (WCAG), Application Security

PROFESSIONAL EXPERIENCE

Senior Front-End & Mid Full-Stack Developer — Saudi Azm (Azm Digital)

Nov 2023 – Present | Remote

- Lead end-to-end front-end architecture and development for complex, large-scale enterprise web and mobile applications, seamlessly integrating UI/UX designs from Figma and Adobe XD.
- Spearhead the migration and upgrade of legacy enterprise applications to the latest Angular releases (v21/v22), leveraging modern features like Signals to optimize rendering speed and long-term maintainability.
- Implemented Docker containerization for front-end projects, streamlining local development environments and ensuring high security and consistency across CI/CD pipelines.
- Build, maintain, and scale robust backend microservices using .NET Core and Node.js, deploying and managing enterprise architectures on Microsoft Azure.
- Design and optimize RESTful APIs, PostgreSQL database integrations, and cross-platform mobile features with React Native.

KEY ENTERPRISE PLATFORMS DELIVERED

 Saudi Bar Association (QC) Complaints quality control & workflow automation system. qccx.sba.gov.sa	 Mirafh Portal Enterprise digital platform with responsive user interfaces. mirafh.sa
 Saudi Engineering Arbitration Center Case management & arbitration portal engine. web01.techprocess.net:28059	 Contract.sa Legal contract management & automated documentation tool. contracts.com.sa

PROFESSIONAL EXPERIENCE (CONTINUED)

Front-End Web Developer — Tahaluf AI Emarat Technical Solutions Jun 2023 – Nov 2023 | Amman, Jordan

- Developed key modules for low-code/no-code business automation platforms using Angular 16 and PrimeNG.
- Optimized application performance and resolved UI integration bugs, significantly reducing initial page load times and memory overhead.

Front-End Web Developer — Shepherd Technologies Nov 2021 – Jun 2023 | Amman, Jordan

- Developed responsive single-page applications (SPAs) for Human Capital Management suites (Payroll & Performance modules) using Angular and RESTful APIs.
- Refactored legacy front-end codebases to improve accessibility, maintainability, and overall system execution speed.

Full-Stack Web Developer — PenguinIN Nov 2020 – Nov 2021 | Amman, Jordan

- Built indoor navigation CMS products using Node.js, React, OpenLayers, and PostgreSQL backend services.

EDUCATION & TECHNICAL CERTIFICATIONS

B.Sc. Communication & Software Engineering — Al-Balqa Applied University 2014 – 2018

GPA: 3.58 / 4.00 (Ranked 2nd in Class)

Full Stack Web Development Intensive — Hack Reactor Curriculum Mar – Aug 2020

12-Week Immersive Software Engineering Program

Verified LinkedIn Skill Certifications: Angular, React.js, Node.js, JavaScript, TypeScript, Git, Agile Methodologies
